

# Fresh Water

It's just different!

**Fresh Water** from our range of point-of-use water filtration products hydrates your body effectively. Ideal for household use, our products provide great tasting, clean and high-quality filtered water for drinking, cooking and food preparation needs without the hassle of boiling.

## How it works

### 1st Stage: Ultrafiltration (UF) Membrane

- Hollow fibre ultrafiltration (UF) membrane – filters impurities as small as 0.01 micron which include bacteria and most viruses
- Removes turbidity, sand, silt, dirt and other sediments

### 2nd Stage: Carbon Filtration

- Reduces chlorine, bad taste and odour

## Product specifications

<b>Dimensions</b>	241 mm (W) x 89 mm (D) x 400 mm (H)
<b>Filtration flow rate</b>	2.3 litre/min at 4.0 bar water pressure
<b>Operating water pressure</b>	1.5 - 4.0 bar (21 - 58 psi)
<b>Water pressure spike limit</b>	6.9 bar (100psi)
<b>Operating water temperature</b>	5-38°C
<b>Cartridge lifespan*</b>	ultrafiltration filter: 2 years carbon filter: 1 year

\* May vary depending on local water quality and water flow rate. Use municipal tap water and do not use water with unknown quality without carrying out adequate disinfection.

HF1P+ Ultrafiltration Drinking Water System Long Life is tested in accordance to:

- APHA 9222B using E-coli Bacteria
- US ANSI/NSF Standard 42 for reduction of chlorine, taste and odour (for carbon filter)
- WHO Guidelines for Drinking Water, Edition 4, 2011

Model: HF1P+

# Fresh filtered water on demand

Enjoy clean water, an important element for a healthy lifestyle, via our water filtration products. Utilising our proprietary ultrafiltration (UF) hollow fibre membrane technology, our system provides fresh drinking water on demand, anytime, in your home or office.

Neatly tucked away in the kitchen sink cabinet with a slim faucet for drinking water, you get to keep your counter-top space clutter-free. Filter replacement is easy and simple with our auto-shut design, enabling dry cartridge replacement without the need to shut off any water mains, or disrupt water supply within the home.

## Superiority of our UF membranes

**HF1P+ Ultrafiltration Drinking Water System Long Life**

## Forward-flush cleaning technology

Enjoy beneficial **minerals retained in water** such as Calcium and Magnesium

Reduces **more than 90%** of chlorine

**Fresh water on demand**  
(No boiling needed)

**Hassle-free**  
DIY cartridge replacement with auto-shut design

Blocks impurities as small as 0.01 micron which include **bacteria** and most **viruses**

**No water wastage**  
(No drain line required)

**Ecological and economical**

For use with municipal water only
