

NANO-1S

Exceptional Filter Performance

Product Specifications:	
Model no	NANO-1S
Dimension	90(Dia.) x 310(H) mm
Filtration flow rate	2 L/min
Water pressure	0.6 - 5 bar
Water temperature	0 - 40 °C
Cartridge's life span	6 months / 2,000 L
Filter cartridge model	NC-1S
For use with municipal water supply only	
*Life span of cartridge varies with water conditions.	

Reduces Bacteria & Blocks Cysts

Blocks Sediments & Rust

Reduces Heavy Metal: Lead

Reduces Chlorine to Improve Taste

NANO-1S

Exceptional Filter Performance

Blocks
Sediments and Rust

Reduces Bacteria
Blocks Cysts

Reduces Heavy Metals:
Lead, Mercury,
Cadmium, Chromium

Reduces
Chlorine to improve taste

Retains
Beneficial Minerals

Installation Method

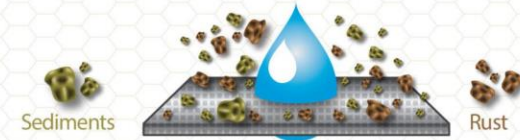

1. DIY - Divertor on Kitchen Tap

2. Undersink Installation - With Drinking Faucet

Water Purification Technology

1st Layer

Silver Impregnated Mesh

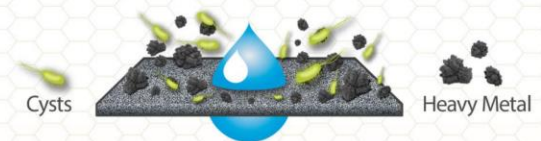

Anti-bacterial silver impregnated mesh traps sediments and suspended solids like rust.

2nd Layer

Activated Carbon Block

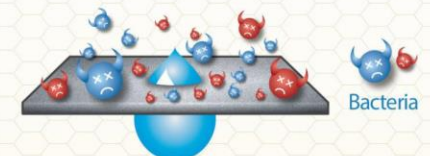

High-performance NSF certified activated carbon block reduces chlorine, solid contaminants, bad taste and odour.

3rd Layer

Integrated Filter Media

Inner layer of 0.5 µm tiny aperture pore size progressively intercepts heavy metal such as Lead, Mercury, Cadmium, Chromium, and removes parasitic cysts.

4th Layer

Nanofibre Membrane

Nanofibre membrane blocks bacteria, submicron inorganic and organic contaminants, via electro-adsorption.
