

Introducing Hyflux's best-selling filtration system, which is now available in a revolutionary 3-in-1 concept.

- Enjoy 3 layers of filtration within a single piece of cartridge.
- Simple twist and release for cartridge replacement.
- Gives you more space on your kitchen counter-top with our integrated cartridge design, mounted under the sink!

With Nanofibre Technology

1st Layer

Silver Impregnated Mesh

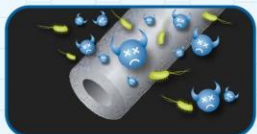

Anti-bacterial **silver impregnated mesh** traps sediments and suspended solids like rust.

2nd Layer

Activated Carbon Block

High-performance **NSF certified activated carbon block** reduces chlorine, solid contaminants, bad taste and odour.

3rd Layer

Nanofibre Membrane

Nanofibre membrane blocks bacteria, submicron inorganic and organic contaminants, via electro-adsorption.

NANO-1

Integrated H₂O System

Product Specifications:

Model no	NANO-1
Dimensions	90(Dia.) x 310(H) mm
Filtration flow rate	2 liter/min
Water pressure	0.6 - 4 bar
Water temperature	0 - 40 °C

NANO-1

Integrated H₂O System

Best-Selling 3-in-1 Filtration System in the Market!

Top 5 Reasons to Choose Hyflux NANO-1 Filtration System

Saving

Up to 70% cost savings - with a capacity of 2000 litres, one cartridge is equivalent to 4000 bottles of mineral water.

Light weight

There is no need to store or lift heavy water bottles with our direct piped-in system.

EZ Twist

Filter replacement is just an effortless twist. Convenient and hygenic!

Healthy

Improve the health and well-being of your staff and your loved ones. Hyflux Nano-1 is tested by **SGS**, so you can be assured of high-quality drinking water all-year round.

No Boiling

Removes the hassle of boiling water.

Experience NANO-1 in 2 ways!

Whether you like to pair your NANO-1 filtration system with a drinking faucet or a dispenser, you can now have it your way! Your loved ones at home and staff in the office no longer need to boil water for drinking, or undergo the hassle of lifting heavy water bottles with our direct piped-in system.

Option 1: NANO-1 with Drinking Faucet

DEW Water Dispenser D800*
(* suitable for 4-6 persons)

Option 2: NANO-1 with D800 DEW Water Dispenser
